

Product data sheet

52040 - Installation kit 2x5FLF vertical empty BAK22

hook-in, to BAK with protective edge 12mm and 22mm
made of galvanized sheet steel 1.5mm
including 2 mounting plates
color: RAL 7032 pebble gray
equipped with:1 pc. Terminal strip 9x2.5mm ²
minimum floor height: BAK12=89mm; BAK22=99mm

Characteristics	
Eldas number	154965207
Base Unit	Piece
availability	Delivery according to agreement
EAN Code	7611718251450
group	282000
Packaging unit	1
country of origin	CH
Customs tariff number	8536.9080
Rating data according to UL 1059	
Smallest connectable section (AWG)	26 AWG
Stripping length (inch)	0,39 inch

Product systems

DAK22 271x271 square

Raised floor system DAK22 271x271 square.

DAK5 278x278 Cr KA

Raised floor system DAK5 278x278 square with installation kit and protective housing

Floor junction box BAK22 to slab formwork

Plenum box BAK22 for fastening to the slab formwork.

The installation of underfloor ducts requires a minimum height of the concrete overlay (60 mm). If this height is not available, special boxes can be obtained for concreting into the raw slab. After fastening to the formwork, they are connected to each other with underfloor trunking 200 x 40, covered with the temporary protective cover and cast in the concrete up to the top edge.

The installation kit is mounted on the levelable box insert; the opening between the box bottom and the installation plate allows the cable to pass through to the next box. After finished wiring, an aluminum cover with cable trough is attached.

Connection box consisting of:

- Enclosure with adjustable feet, with four side openings 202 x 42 mm and a bottom entry tube M50 with temporary one-way steel cover incl. 4 screws
- Enclosure insert made of aluminum, with frame 278 x 278
- Al cover with edge 22 mm
- 2 cable trays made of polycarbonate crystal clear with transparent filler piece

DAK22 levelable 271x271 square

Raised floor system DAK22 271x271 square, with levelable covering height

Product data sheet

52040 - Installation kit 2x5FLF vertical empty BAK22

Floor junction box BAK22 200x40

Underfloor system with square plenum box and chrome steel and aluminum junction boxes, edge height 22mm for UFK 200x40 underfloor duct.

Floor junction box BAK22 200x50

Underfloor system with square plenum box and chrome steel and aluminum junction boxes, edge height 22mm for UFK 200x50 underfloor duct.

Floor junction box BAK22 300x40

Underfloor system with square plenum box and chrome steel and aluminum junction boxes, edge height 22mm for UFK 300x40 underfloor duct.

Floor junction box BAK22 300x50

Underfloor system with square plenum box and chrome steel and aluminum junction boxes, edge height 22mm for UFK 300x50 underfloor duct.

Floor junction box BAK12 200x30

Underfloor system with square plenum box and chrome steel/aluminum junction boxes, edge height 12mm for UFK 200x30 underfloor duct.

Floor junction box BAK12 200x40

Underfloor system with square plenum box and chrome steel/aluminum junction boxes, edge height 12mm for UFK 200x40 underfloor duct.

Floor junction box BAK12 200x50

Underfloor system with square plenum box and chrome steel/aluminum junction boxes, edge height 12mm for UFK 200x50 underfloor duct.
