

Product data sheet

2750 - DIN rail DIN15 steel galvanized 2 m

DIN15 rail with 15x5.5x1 mm, made of galvanized steel, with a 6 mm² copper cross section, with fixing slots, 2 m length

Characteristics	
Eldas number	168310127
Base Unit	Meter
availability	Delivery according to agreement
EAN Code	7611718247941
group	165000
Packaging unit	2
country of origin	CH
Customs tariff number	7216.9900
Weight (g)	139 g
Technical data	
Dimensions length x width x height (mm)	15x5.5x1 mm
Material	Stainless steel
Connection type	Accessories clamp
DIN rail type	DIN-15

Product systems

Profile rail DIN15

DIN rail DIN15, universal carrier made of a sheet metal profile in electrical engineering for fastening electrical equipment in distribution boxes, control cabinets, junction boxes, etc. Different components (for example relays, impulse switches, timers, circuit breakers, terminal blocks) can be slid onto a carrier rail from the side or plugged on and locked from the front. This standardized method facilitates the assembly of control cabinets and switch boxes, thus reducing labor costs. The different types of rails are in the standard EN 60715.

Profile rails DIN15, DIN32, DIN35

Various mounting rails and combination rails.
