

System overview

Protective conductor terminal blocks to DIN 35 spring-cage terminal blocks

Various protective conductor terminals to tension spring terminals.

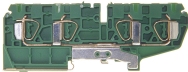

Components

	35330/3V - PE spring-cage terminal DIN35 2.5mm² green/yellow Protective conductor terminal partially wired with 3 connections, green/yellow	
	35340/3V - PE spring-cage terminal DIN35 2.5mm² green/yellow Protective conductor terminal partially wired with 4 connections, green/yellow	
	35310/10V - PE tension spring terminal DIN35 10mm² green Protective conductor terminal, part wired, with 2 connections, green/yellow	
	35310/16V - PE tension spring terminal DIN35 16mm² green partially enclosed earthing terminals, with 2 clamps, greenyellow	
	35310/3V - PE tension spring terminal DIN35 2.5mm² green Protective conductor terminal, part wired, with 2 connections, green/yellow	
	35310/4V - PE tension spring terminal DIN35 4mm² green/yellow Protective conductor terminal, part wired, with 2 connections, green/yellow	
	35330/4V - PE tension spring terminal DIN35 4mm² green/yellow Protective conductor terminal, part wired, with 3 connections, green/yellow	
	35330/6V - PE tension spring terminal DIN35 6mm² green partially enclosed earthing terminals, with 3 clamps, greenyellow	
	35310/6V - PE tension spring terminal DIN35 6mm² green/yellow Protective conductor terminal, part wired, with 2 connections, green/yellow
