

Product data sheet

48028 - Connection set with copper conductor 50 mm²

The connection set, consisting of a 3 m long, insulated conductor (cable 50 mm² Cu) and 4 pressed-on clamping plates for connection to 4 longitudinal steels, serves as a connection from the foundation earth electrode to the connection points on the wall surfaces inside or outside the building.

Characteristics	
Eldas number	156940217
Base Unit	Piece
availability	Delivery in 4 weeks
EAN Code	7611718200403
group	169000
Packaging unit	1
country of origin	CH
Customs tariff number	853890
Weight (g)	2350 g

Product systems

Connection sets with copper conductor

Various connection sets with copper conductors for connecting foundation grounding electrodes to the connection points.

Foundation earthing

The focus is on the foundation earthing concept, perfect for new buildings.

Banderer

Find out what special measures need to be taken when using a conductor laid in a concrete foundation, also known as a banderder.
