

System overview

Wired protective conductor terminals DIN 35

Various wired protective conductor terminals.

Components

	<p>3437V - Protective conductor terminal DIN35 16mm² 55x13x55mm Protective conductor terminal DIN35 16 mm², 55x13x55mm, green/yellow, boarded, stainless steel screws and springs.</p>	
	<p>3436V - Protective conductor terminal DIN35 6mm² green/yellow Protective conductor terminal boarded stainless steel screws and springs</p>	
	<p>3436/10V - Protective conductor terminal DIN35 10mm² green/yellow Protective conductor terminal DIN35 10 mm², 52x11x50.5 mm, boarded, stainless steel screws and springs. green/yellow.</p>	
	<p>30544/16V - Protective conductor terminal DIN35 16mm² 54x13x42mm Protective conductor terminal DIN35, 16 mm², 54x13x42mm, green/yellow, boarded, stainless steel screws and springs.</p>	
	<p>30550/70V - Protective conductor terminal DIN35 70mm² green/yellow Protective conductor terminal boarded stainless steel screws and springs</p>	
	<p>3438V - Protective conductor terminal DIN35 35mm² green/yellow Green-yellow protective conductor terminal 60x18x71 mm boarded stainless steel screws and springs.</p>	
	<p>30544/35V - Protective conductor terminal DIN35 35mm² green/yellow Protective conductor terminal DIN35, 35 mm², green/yellow, 58x16x56 mm. Stainless steel screws and springs</p>	
	<p>3436/4V - Protective conductor terminal DIN35 4mm² green/yellow Protective conductor terminal boarded stainless steel screws and springs</p>
