

System overview

Branch terminals with steatite body

Various branch terminals with steatite body.

Components

	4050A - alu. rail Woertz 19x7mm, length 3000mm of aluminium alloy, corresponds to 50mm 2 Cu	
	4020SBL - Steatite branching terminal 2.5mm² blue null	
	4020SE - Steatite branching terminal 2.5mm² g/y Branch terminal suitable for Woertz rail 4050A to slide on, insulation body steatite	
	4020S - Steatite Branching terminal 2.5mm² white null	
	4020/6SBL - Steatite branching terminal 6mm² blue null	
	4020/6SE - Steatite branching terminal 6mm² g/y null	
	4020/6S - Steatite branching terminal 6mm² white null	
	4022SBL - Steatite branching terminal 10mm² blue null	
	4022SE - Steatite branching terminal 10mm² g/y null	

System overview

Branch terminals with steatite body

	4022S - Steatite branching terminal 10mm² white null	
	4024SBL - Steatite branching terminal 16mm² blue null	
	4024SE - Steatite branching terminal 16mm² g/y null	
	4024S - Steatite branching terminal 16mm² white null	
	4028SBL - Steatite branching terminal 35mm² blue null	
	4028SE - Steatite branching terminal 35mm² g/y null	
	4028S - Steatite branching terminal 35mm² white null	
	4030SBL - Steatite branching terminal 70mm² blue null	
	4030SE - Steatite branching terminal 70mm² g/y null	
	4030S - Steatite branching terminal 70mm² white null	
	4032SE - Steatite branching terminal 120mm² g/y null	
	4032SBL - Steatite branch terminal 120mm² blue Branch terminal suitable for Woertz rail 4050A to slide on, insulation body steatite	

System overview

Branch terminals with steatite body

4032S - Steatite branch terminal 120mm² white

Branch terminal 120mm² white suitable for Woertz rail 4050A to slide on, insulation body steatite
