

System overview

GRP channel 80x80

Fire safety cable duct made of glass fiber reinforced polyester resin 80x80mm to E30-E90 system.

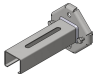

Components

	49331/80 - GRP tray 80x80 for E30-E90 L=3m Tray in glass-fiber reinforced plastic inside 80x80 mm for E30-E90 system. Length 3 m.	
	49332/80 - GRP Cover 96x12.2 for E30-90 L=3m Cover in glass-fiber reinforced plastic 96x12.2 mm for E30-E90 system. Length 3 m.	
	49333/80 - Guidance V4A to GRP trunking Guidance in stainless steel 150x94x70 mm for gradients, angles and deviations.	
	49357 - Fastening material for GRP channel to channel guide null	
	49337/80/K1 - Bracket extension to GRP channel 80x80 250-350mm null	
	49337/80/L1 - Bracket extension to GRP channel 80x80 350-450mm null	
	49337/80/K2 - Bracket extens. to 80x80 350-450mm Structure with two channels in parallel	
	49337/80/L2 - Bracket extens. to 80x80 450-550mm Structure with two channels in parallel	
	49350/1 - Bracket VA4 for cable guide 80x80 E30 / E90 Support bracket for mounting on flat surfaces for cable routing system E30/E90	

System overview

GRP channel 80x80

	49350/2 - Bracket VA4 - Type 2 - E30 / E90 Support bracket for mounting on shotcrete for cable routing system E30 / E90	
	49356 - Fastening material for trunking guide to console attachment null	
	49355 - Mounting material for support bracket null
