

System overview

Can terminals

Can terminal block with lever, with its 2/3/5/8-way connections and transparent design with test slot, it is suitable for a wide range of cable diameters, from single-wire to fine-stranded and multi-stranded conductors with cross-sections from 0.2 mm² to 2.5 mm².

Components

	<p>39000/02 - Box terminal with lever 2.5mm² 2-fold</p> <p>For connecting single-wire, fine-wire and stranded copper conductors with cross-sections from 0.2mm² to 2.5mm², transparent with test slot. 100 pcs per box</p>	
	<p>39000/03 - Box terminal with lever 2.5mm² 3-fold</p> <p>For connecting single-wire, fine-wire and stranded copper conductors with cross-sections from 0.2mm² to 2.5mm², transparent with test slot. 100 pcs per box</p>	
	<p>39000/05 - Box terminal with lever 2.5mm² 5-fold</p> <p>For connecting single-wire, fine-wire and stranded copper conductors with cross-sections from 0.2mm² to 2.5mm², transparent with test slot. 50 pcs per box</p>	
	<p>39000/08 - Box terminal with lever 2.5mm² 8-way</p> <p>For connecting single-wire, fine-wire and stranded copper conductors with cross-sections from 0.2mm² to 2.5mm², transparent with test slot. 50 pcs per box</p>
