

Product data sheet

48006/1 - Ground strap copper galvanized 40x3mm

Earth tape copper galvanized 40x3mm in rolls of approx. 12.5m

Characteristics	
Eldas number	100739340
Base Unit	Meter
availability	Delivery according to agreement
EAN Code	7611718212963
Packaging unit	12,5
Customs tariff number	7419.9930
Technical data	
Dimensions length x width x height (mm)	40x3 mm
Material	Copper

### Product systems

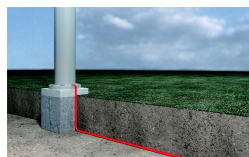

#### Earth tapes

Various metal ground straps and spacers.

#### Banderer

Find out what special measures need to be taken when using a conductor laid in a concrete foundation, also known as a banderder.

#### Banderer - Radial earth electrode

A comprehensive look at the radial earth electrode, which serves as a supplement for systems with insufficient earth contact resistance. The precise laying of the earth electrode directly in the ground, at a depth of at least 70 cm. Ensure that the ground always remains moist and is not covered by surface coverings.
